OUR STORY

Decades ago, in the heart of Mauritius, a young father stepped onto his family's land. This wasn't just any land; it was a tea plantation, a rich canvas of potential. As he surveyed the valley, he noticed something remarkable—the earth itself was alive with color. He discovered the 23 hues of Mauritian soil, each one a glimpse into the island's fiery history. Year after year, he transformed this land.

What began as a simple tea plantation grew into a playground of discovery. He saw a natural pathway leading to a waterfall and built a quad trail around it. He noticed stunning ocean views and created ziplines that let people soar.

His vision turned the land into an adventure, each addition inspired by the island's natural beauty. Wildlife roamed freely—all part of the ecosystem he nurtured.

He didn't just build; he preserved and integrated nature into every experience. His work was driven by a deep respect for the land. Today, Vallé stands as a testament to that vision.

The purpose of the park has always been there, embedded in the land and its story, ready to take your breath away.

A PANORAMIC ADVENTURE

23 COLOURED EARTH

A natural wonder millions of years in the making, the 23-coloured earth is a rare geological phenomenon formed by volcanic ash and mineral-rich elements. Its striking hues—deep reds, earthy browns, golden yellows, purples, blues, and greens—create a mesmerizing landscape found nowhere else on earth.

This breathtaking formation is more than just a visual spectacle; it is a testament to Mauritius' volcanic origins and a living record of nature's artistry.

A GEOLOGICAL MASTERPIECE

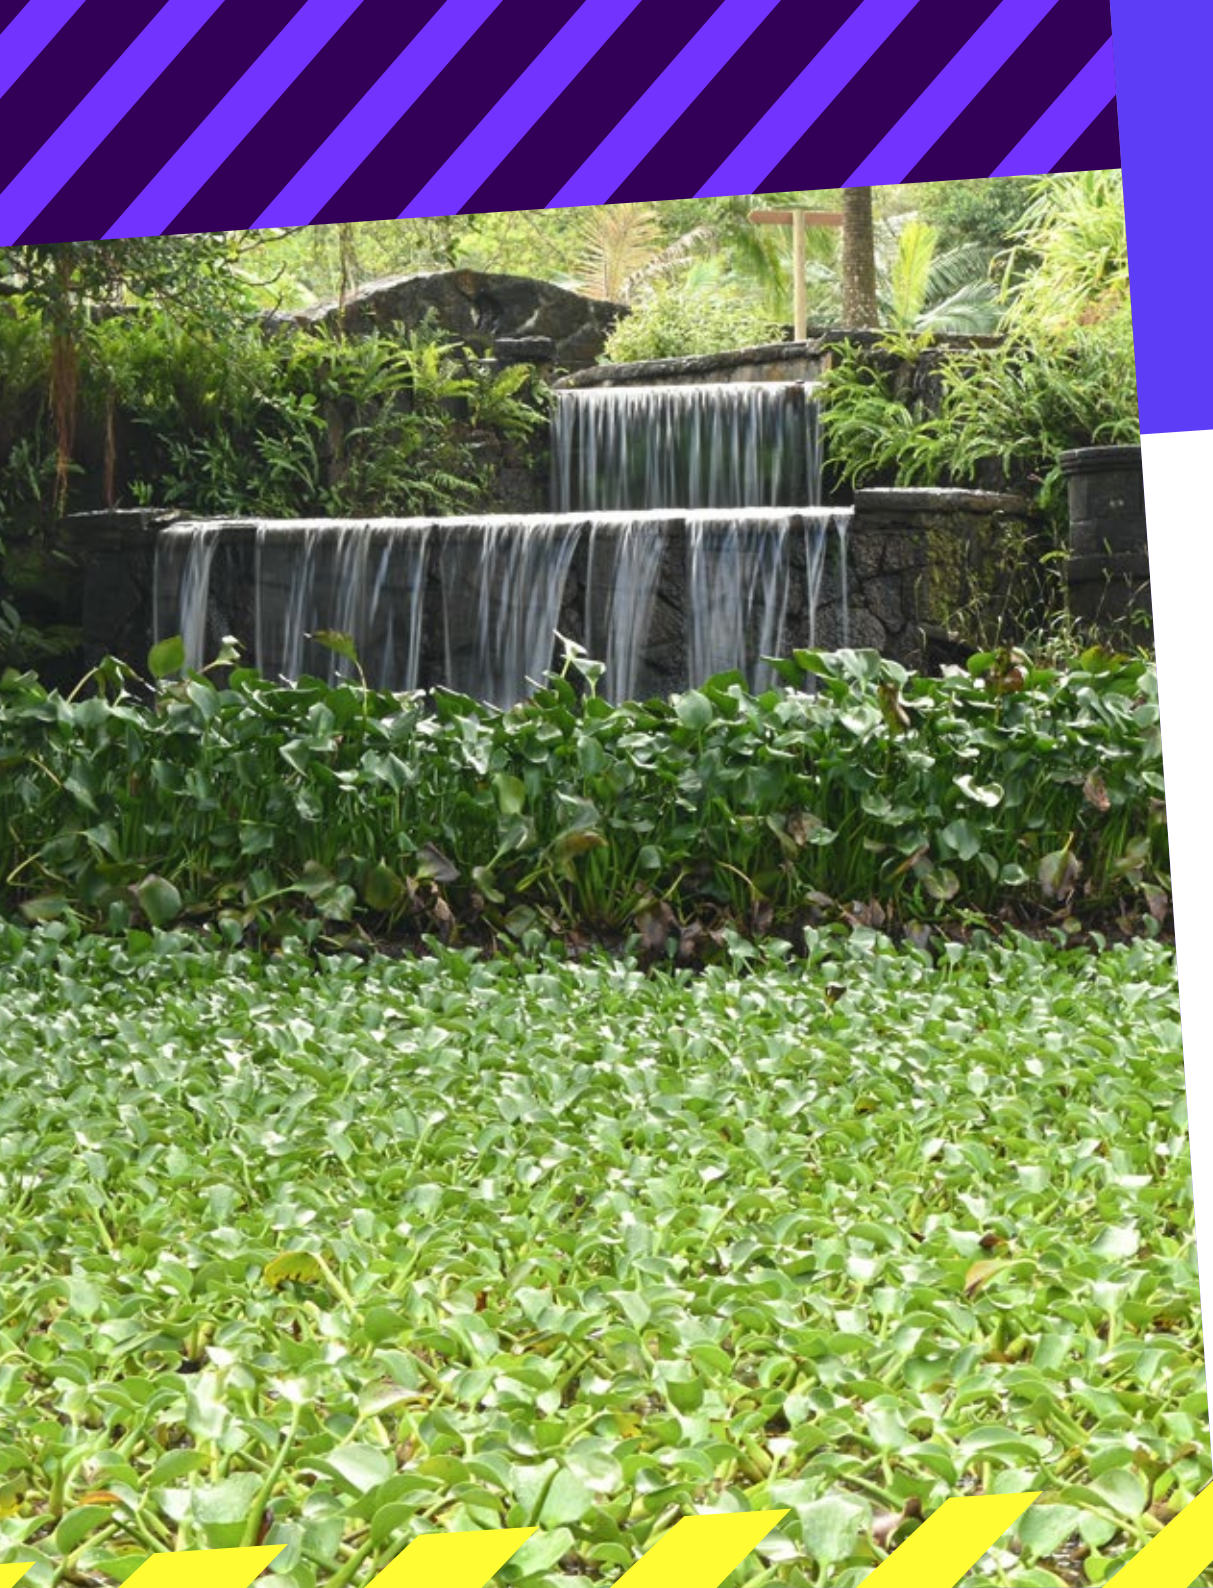

A photograph of two brown deer with large, upright ears resting on a mossy rock in a forest. The deer are looking towards the camera. The background is a blurred forest scene with green foliage and brown tree trunks. The image is framed by a green and purple striped border at the top and a yellow and purple striped border at the bottom.

DISCOVERY TRACK

Vallé is home to a thriving ecosystem, where endemic trees like Black Ebony and Bois de Natte stand tall, and graceful deers and giant tortoises move freely across the landscape.

This living sanctuary showcases the rich biodiversity of Mauritius, where every species—from towering trees to roaming wildlife—plays a vital role in nature's delicate balance.

A SANCTUARY OF BIODIVERSITY

ROCK GARDEN

Inspired by 7th-century Zen gardens, the Rock Garden is a peaceful retreat where natural rock formations, vibrant flowers, and rich plant life come together in perfect harmony.

Designed for reflection and relaxation, this serene space invites you to pause, breathe, and reconnect with nature's calming rhythm.

A HAVEN OF TRANQUILITY

A man and a woman are taking a selfie in front of a waterfall. The man is in the foreground, wearing an orange t-shirt, and the woman is behind him, wearing a blue denim jacket over a white top. They are both smiling and looking at the camera. The waterfall is in the background, surrounded by lush greenery. The image is framed by a purple and green diagonal striped border at the top and a yellow and purple diagonal striped border at the bottom.

WATERFALL

Discover the stunning waterfalls, namely Vacoas, Cheveux d'Ange, and Chamouzé, each offering awe-inspiring views and pristine natural beauty.

Set against a backdrop of diverse landscapes, these cascading waters create a refreshing and unforgettable highlight of your Vallé experience.

NATURE'S SPECTACLE
